

Fritekst blir nå bedre og tryggere

I den kommende mars-oppdatering introduserer vi en ny og forbedret versjon av Fritekst-oppgavetypen.

Kandidatene vil nå ha **tilgang til angrehistorikken** selv om de går videre til neste oppgave. Dette betyr at hvis de ved et uhell sletter svaret sitt, kan de enkelt gjenopprette svaret ved å klikke på angreknappen – selv etter å ha navigert frem og tilbake mellom oppgavene.
